

In-Kind Donation Restrictions

Our youth usually come into our care with very little or even nothing. Thus, we aim to comfort them by providing them with everything they need for a fresh start whether they are in our Residential Services Program or in our New Directions Program.

We like to provide our youth with new/unused items as much as possible--this gives them comfort and confidence by having something that is completely theirs. Some gently used items can be accepted, but please refer to the restrictions below to ensure we can accept your donation.

Basic Need Restrictions
